

BEHAVIORAL & MENTAL HEALTH

C O N F E R E N C E

DROP-OUT PREVENTION

Monday, March 8, 2010, 8:00am - 4:00pm
Education Service Center - Region 19, 6611 Boeing Drive

Mental Health, Depression, Self Cutting, Drug Addictions, Classroom Management for Behavioral Issues and other at Risk Lifestyle Choices

For Counselors, At Risk Coordinators, Health Educators Parents, Nurses and Community Members.

Schools are reporting an increase in both the number of students with mental behavioral health problems and the complexity and severity of issues. Substance abuse along with other risky behaviors often coexist with mental health leading to emotional disorders. If left untreated, these problems can impact students' emotional and social development as well as their academic success.

The conference will explore mental health disorders such as depression, self injury, drug addictions, who's depressed out there, the suicidal student, the angry kid, unhealthy at-risk lifestyle choices, as well as positive behaviors. Sessions will address mental health and behavioral issues and provide examples of successful strategies implemented by other campuses, and knowledge and skills needed to create a campus environment that promotes the student's mental health.

Register today at Click & Learn, www.esc19.net, event #9702, \$75.
